REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The claims are allowable over the cited prior arts because said prior arts do not disclose or make obvious an apparatus for reducing the self-adhesiveness of polymer pellets, such PTT, comprising various means for introducing pellets into a conduit containing liquid, moving the liquid through the conduit, controlling the temperature, separating the pellets from the liquid, a classifier for removing pellet fines and dust, and means for recycling the liquid. The closest art is the commonly-owned patent to Duh et al 6,297,315, which discloses process for preparing PTT, wherein the palletized product is crystallized by immersion in hot water. The prior art apparatus does not use a classifier to remove pellet fines and dust as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
